

Environmental Technologies Panel Meeting

Biloxi, MS

March 9-11, 2005

MEETING OVERVIEW

This meeting will feature presentations on the EPA Welding Emissions Residual Risk Evaluation, Refrigerant Management Regulations, new NESHAP regulations that will affect shipyards, a demonstration of the Expert Environmental Management System, a presentation on a potential research announcement project proposal entitled "Alternatives to Reduce Welding Impacts Analysis", updates on the EPA Lean-EMS collaborative project and the EPA-SCA Stormwater BMP development project, and an NSRP ETP Program Manager report. There will also be a tour of Northrop-Grumman Ship Systems - Ingalls, including the new Enclosed Blast & Coat Facility, the new waste management area, and its vacuum abrasive blasting equipment. **IMPORTANT TOUR INSTRUCTIONS:** The tour is limited to citizens of the U.S. To participate in tour, you must bring an I.D. with you and pre-register for meeting.

AGENDA

An agenda for the meeting is [available](#). This event is free and open to the public.
