

NSRP Panel Meeting Minutes

Surface Preparation and Coatings (SP-3)

Date: September 30, 2009

To: NSRP SP-3 Steering Committee

Fr: Steve Cogswell, Panel Chair

Re: September 17, 2009 Meeting

On September 17, 2009 The NSRP SP-3 Panel held a meeting in conjunction with the All-Panel Meeting in Philadelphia, PA. An attendees list is attached. Following were the key issues discussed:

- Panel project presentations were made on the three active panel projects (Acceptability of Flash Rust, 50% Relative Humidity for Tank Painting, and Retention of Pre-Construction Primer).
- A discussion of the general sessions revealed several issues related to painting in the areas of workforce retention, safety, and design for production. The SP-3 Panel will work with other panels on projects in these areas.
- Steve Cogswell and Judie Blakey were nominated to continue in their present capacities as Chair and Vice Chair, respectively. During the general meeting this motion was carried unanimously.
- The following future meeting dates were tentatively identified:
 - February 24-26, 2010 in San Diego (NASSCO tour, T-AKE Launch at NASSCO on the 27th)
 - June, 2010 in Ketchikan, Alaska (Alaska Ship & Drydock tour)
 - Fall, 2010 in Connecticut/Rhode Island (GD-EB Tour)
- Potential White Paper projects were discussed. Unfunded projects from the past were reviewed and new ideas generated. Various individuals expressed interest in submitting white papers for the topics discussed.
