# Purpose

- Provide public forum for discussing the functions of providing and maintaining a physical plant capable of assembling, modifying and repairing ships in an efficient, safe, controllable and ecologically acceptable manner
- Promote industry-wide networking and technology transfer
- Membership comprised of experts in related disciplines from private and public shipyards
- Interface between ASA and SCA shipyard members, NAVSEA and DOL

# 2009 Activity

- Workers' Compensation/Safety & Health Committees met in New Orleans on June 10-11
- Subject matter experts presented on wide range of related topics
- Roundtable discussion provided opportunity to share 2009 experience and best practices
- Toured NG-Avondale Shipyard

# 2009 Activity Con't

- All-Panel Meeting on Sept. 15-17 with Safety Committee Breakout Session
- Annual SNAME Conference in Providence, RI on Oct. 21-23
- Workers' Compensation Committee Meeting in San Diego on Nov. 18-19
- Solicit and review Panel Project Whitepapers & RA Project Abstract

# Future Plans

- Complete current Panel Project: Performance-based Language for Preservative Coating Removal
- Prepare for Panel Project Whitepaper presentation to ECB at their Jan. 2010 Mtg.
- Continue close working relationship between private and public sector shipyards in effort to reduce injuries and their associated costs
- Plan for 2010
