

NSRP SP&C – For the Good of the Panel

Surface Preparation & Coatings

Congratulations to Joe Walker, Vice President, Elcometer, Inc., for his recent, July 2019, selection as SSPC President, Board of Governors. Joe is a long time member of the National Shipbuilding Research Program (NSRP) Surface Preparation and Coatings (SP&C) Panel. He recently, 2014-2015, led one of the Panel's White Papers projects, ***Reducing Inspecting Costs Using the Latest Digital Inspection Tools.***

Joe Walker, SSPC President, Board of Governors

- November 17-19, 2020** – **ECB Mtg. & NSRP Day @ NAVSEA** – Washington Navy Yard, Washington, D.C.

NSRP SP&C Panel Responsibilities & Takeaways

Surface Preparation & Coatings

“You, the Coatings Community, are the subject matter experts (SMEs). You owe it to yourselves, your Shipyards, and your Companies to stay aware of and understand the current and proposed coatings requirements. Don’t allow someone else to determine your fate and/or that of your Company without your input”.

“Remember, the work isn’t completed until the ship is painted and/or cleaned (Polysiloxane) and the coatings system is documented; preferably paperless”.

“Together, let’s paint a picture that allow the Coatings Community and the US Navy to be successful”!!!
