

Panel Project Solicitation 26 May 12, 2025

MISSION

- ❖ Employ a unique collaborative framework to research, develop, mature, and implement industry-relevant shipbuilding and sustainment technologies and processes, improving efficiency across the U.S. shipyard industrial base and meeting future demand.

1. INTRODUCTION

The National Shipbuilding Research Program (NSRP) Executive Control Board (ECB) invites interested parties to submit R&D White Papers to be considered for funding as Panel Projects. **Submissions must be in accordance with the latest [Panel Project Guide Vol 1 – Offerors FY26 \(dated May 12, 2025\)](#).**

The ECB continues to strongly support the Panels by providing funding for important projects that are not well suited for the Research Announcement process, yet address the program’s objectives. **Panel Projects have a maximum 12-month period of performance with a ceiling of up to \$200,000 in funding.**

Below are the [nine Panels](#) and their alignment with the Major Initiatives of the Program.

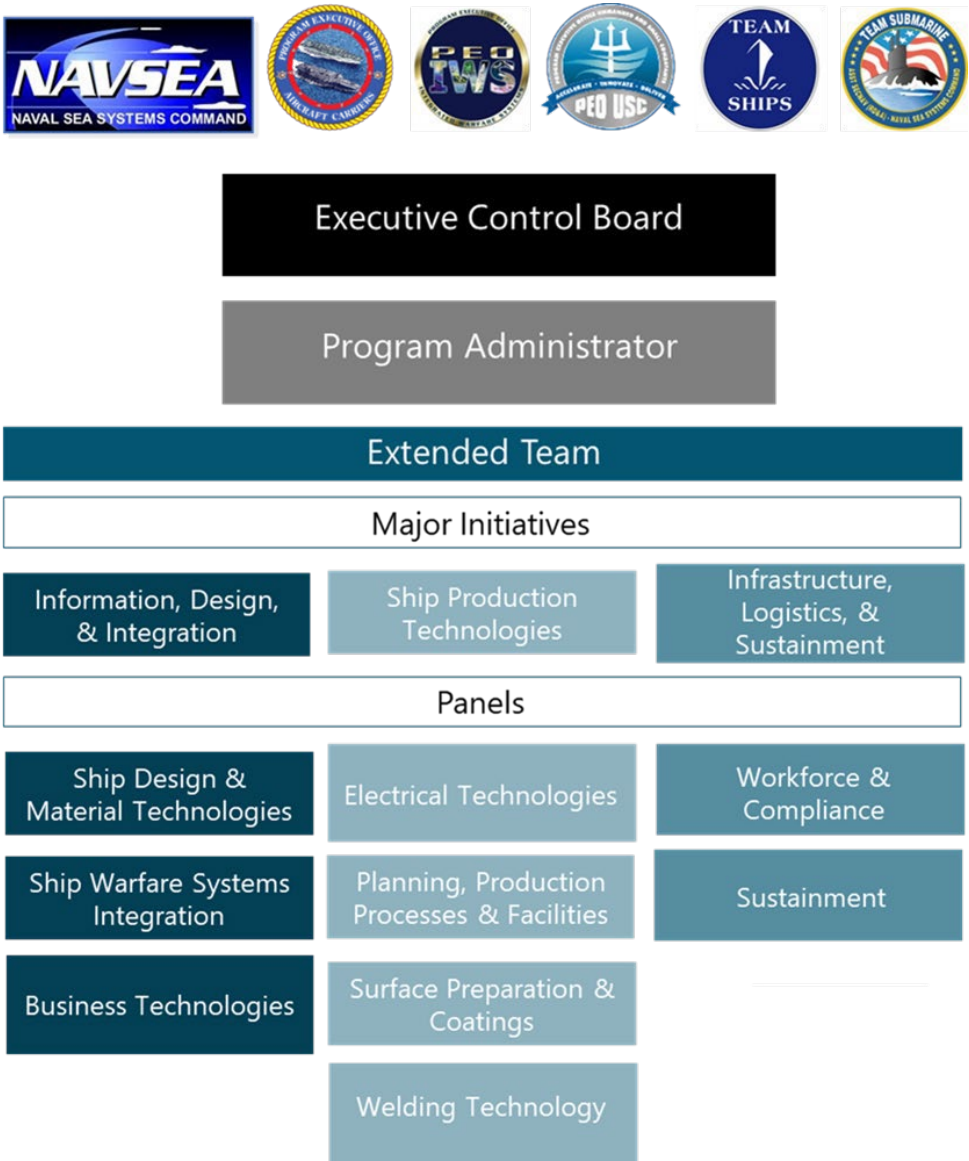

Figure 1 - Panel Alignment with Major Initiative Areas

2. WHITE PAPER TOPICS OF INTEREST

Panel Project White Papers addressing topics from the multi-year [Strategic Investment Plan \(SIP\)](#) as amplified by the annual [Technology Investment Plan \(TIP\)](#) will be of particular interest. This solicitation is issued to solicit White Papers for research, development, and implementation of best practices in the U.S. shipbuilding and repair enterprise.

Panel Officers should strongly encourage their membership to review both the [SIP](#) and the latest [TIP](#) prior to submission of White Papers under this solicitation. However, this is not meant to restrict the process. Both during Panel White Paper submissions and during ECB selection, the objective is always to fund the best available projects that support the NSRP mission with available funding.

3. WHITE PAPER SUBMISSION PROCESS

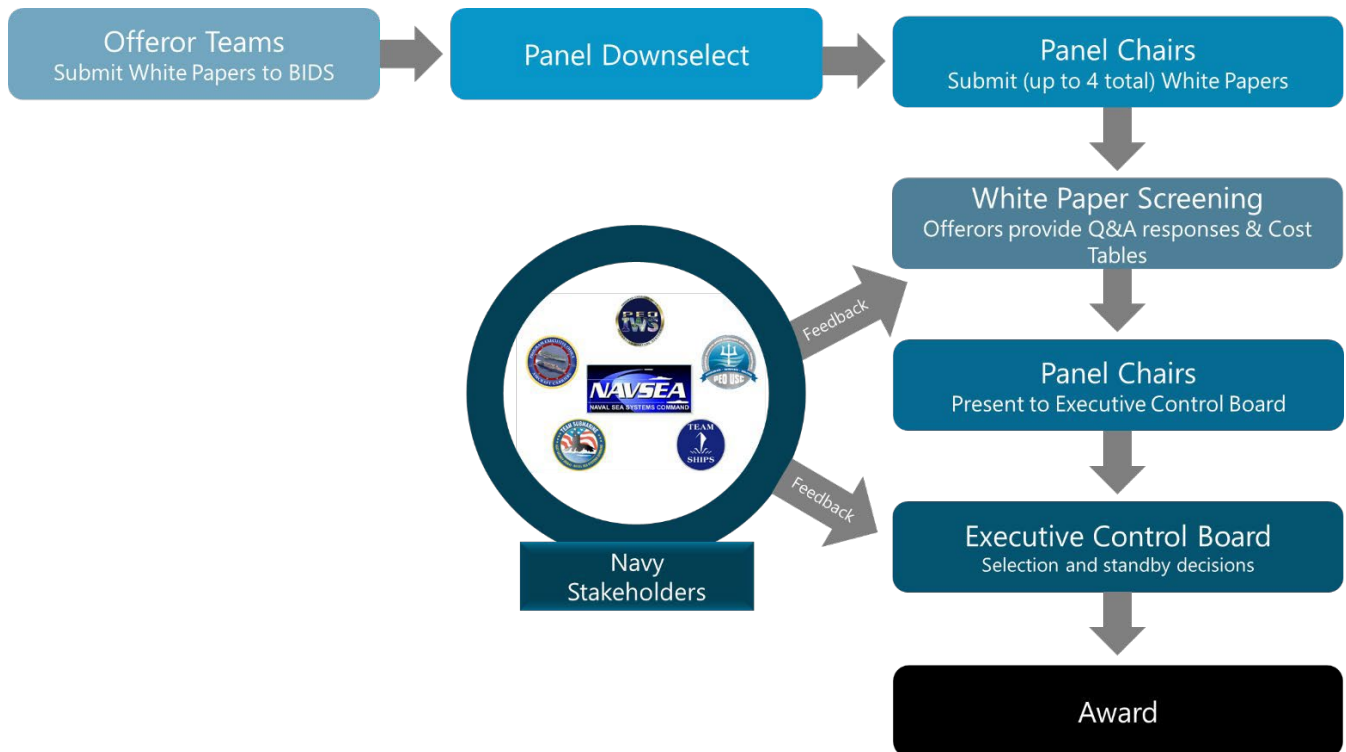

Figure 2 - Panel Project Selection Process

NSRP Executive Control Board member shipyards and Panel members (as defined by individual Panel membership by-laws) may submit White Papers. White Papers shall be submitted within the [Broad Agency Announcement \(BAA\) Information Delivery System \(BIDS\) site](#). The Panel Chairs will have access to the submissions within BIDS for their reviews.

Offerors will submit the White Paper to the Panel to which the White Paper is associated. Submission to multiple Panels is acceptable, with a maximum of three (3) Panels to one single White Paper. Panel Chairs will screen submissions for applicability to their Panel's mission. The Panels will vote on all

screened White Papers and select up to three White Papers and up to one additional joint White Paper. The down selected White Papers will be the proposed projects the Panel Officers will present to the NSRP Executive Control Board for their selection. Offerors: See Figure 2 – Panel Project Selection Process.

4. EVALUATION CRITERIA

The ECB will evaluate White Papers for selection using criteria that include, but are not limited to, those shown below. Offerors, Panels, and Panel Officers should also consider these criteria when submitting and when deciding which White Papers to select for consideration by the ECB.

- Technology transfer and implementation objectives that benefit both industry and Government are clearly stated.
NOTE: “Technology transfer and implementation” involves more than simply giving presentations at meetings and conferences. NSRP project proposals should include not only plans for disseminating information but also plans for others to receive that information and act on it to realize benefits from the project results. Develop these plans with the following steps in mind, along with other guidance in the [NSRP Technology Transfer and Implementation Guide](#):
 - Disseminate project information during the project execution;
 - Facilitate adoption of the technologies and/or processes developed under the project across the industry (including public and private shipyards);
 - Describe methods to engage industry and Government stakeholders, including plans for obtaining any Government approval, if applicable; and
 - Transition the final project results to the U.S. shipbuilding and ship repair industry
- Reasonableness of proposed costs.
- **Participation by one U.S. shipyard is required.** Participation by multiple shipyards, including ECB member shipyards, is preferable.
- Other organizations and/or companies that have committed to participate should be clearly identified. If the Project Lead is a shipyard, commitment by the technical department, as well as the business/financial authority, is critical.
- Government technical community involvement, if applicable
- Government acquisition program office involvement, if applicable
- For projects that involve a survey, submissions should include evidence of a commitment by the target audience to participate in the survey.
- Risks to successful project completion are identified, along with mitigation strategies.
- All projects, if applicable, shall include Government Purpose Rights as defined in the [Base Task Order Agreement](#). Specially-negotiated rights are subject to approval by the NSRP Agreements Officer prior to award. Unless otherwise specifically negotiated and approved, the Government will obtain Government Purpose Rights to all intellectual property (IP) developed under NSRP including IP developed using cost share sources. Any request for specially-negotiated rights (other than Government Purpose Rights) must be disclosed in the White Paper for consideration

and approval. The ECB will factor less-than-full Government Purpose Rights for IP into their selection decisions.

- For projects with otherwise equal merit, the ECB may favor those projects that can be implemented more readily.

5. TEAMING

If the project is selected for award, the Project Lead shall conduct a pre-award Business Evaluation of all project participants, as described in Article III of the [Base Task Order Agreement](#).

6. PROJECT AWARD

The Executive Control Board will select projects for award at their late Fall 2025 meeting, during which Panel Officers or their delegates will give oral presentations on the projects down-selected by their Panel. Presenters should expect questions from the ECB, Navy, and other Government stakeholders regarding their proposed projects.

Further information on the submission, evaluation, and award process can be found in the Panel Project Guide Vol 1 – Offerors FY26

7. NOTICE TO FOREIGN-OWNED FIRMS

Project leads are asked to immediately notify the NSRP Program Administrator point of contact (NSRP-Contracts@ati.org) after deciding to respond to this announcement if any intended project participant is a foreign-owned firm. These project participants should be aware that prior Government approval may be required before their proposals can be considered.

8. OTHER SPECIAL REQUIREMENTS

NSRP is not authorized to store or handle classified information. Do not include any classified material in either white papers or deliverables. Due to the open nature of the Panel Project selection process, do not include any Controlled Unclassified Information (CUI), International Traffic in Arms Regulations (ITAR), or other limited distribution information in your White Paper submissions.

Offerors are advised that research findings and technology developments arising under this project may constitute a significant enhancement to the national defense, and to the economic vitality of the United States. As such, in the conduct of all work under this project, the Offeror will comply with the Export Administration Regulation (15 CFR 730-774) (the EAR) or the International Traffic in Arms Regulation (22 CFR 120-130) (the ITAR), the DoD Instruction 5220.22, "National Industrial Security Program (NISP)," March 18, 2011, National Industrial Security Program Operating Manual (DOD 5220.22R) (the NISPOM), insofar as the EAR, the ITAR and the NISPOM apply to various activities performed in the execution of the project, to include marking, handling, and exchange of any project notes, documents, and deliverables.

9. DEADLINES

Deadline for Offerors to submit White Papers to [BIDS](#) is 4:00 p.m. ET on **August 26, 2025**.

Deadline for Panel Chairs to submit up to three White Papers and one joint White Paper to ATI is 4:00 p.m. ET on **September 26, 2025**. Panel Chairs shall submit White Paper(s).

Any Offeror whose White Paper is one submitted by a Panel Chair for ECB consideration must submit to ATI the Supporting Cost Data Table, as required by the Panel Project Guide – Vol 1 – Offerors FY26 (dated May 12, 2025), by 4:00 p.m. ET on **October 2, 2025**.

Any questions can be directed to NSRP-Contracts@ati.org.
